

SAMPLE SHEET

NEXTGEN COMMITTEES: MISSION STATEMENTS

To ensure the success of your NextGen Committee, it is important to develop a main goal from the outset. A focused mission statement, capturing your purpose will help ensure the Committee remains focused. A mission statement can also serve as the main message of the Committee to describe what it is to other members, and entice them to get involved and support you. Sample mission statements are listed below, to be customized to the needs of your local union.

Samples

- The NextGen Committee is designed to work with local union leadership and members to determine ways in which to better involve younger members in the union; raise awareness of issues specific to young workers; and advocate on behalf of younger workers in the local union and in the community. The Committee will also work to support other local union committees providing insight from a youth perspective and promote the overall goals of the IBEW.
- The NextGen Committee is our response to the need to make a space for young workers in our union structure and promote, educate and empower the next generation of electrical workers to become active IBEW members today.
- The NextGen Committee, made up of IBEW members 35 years of age and younger, is designed to increase union activism through education, engagement and leadership opportunities to prepare the young workers of today with the tools they need to be leaders of tomorrow.
- The NextGen Committee is the IBEW's response to the need to educate, engage and recognize the younger electrical workers within our movement. The NextGen Committee will utilize this opportunity to educate and engage younger members in a meaningful way to ensure their success and the success of our organization as a whole.
- The NextGen Committee is designed to be inclusive of all generations of IBEW members, to help bridge the generational gaps which exist amongst our membership. The Committee will use training, education, and mentorship opportunities to strengthen the solidarity of our movement and equip younger members to become better leaders in our local union.
